Care

We recommend that our products are washed separately for the first time at 60°C. Shrinkage of 5-7% may occur due to the use of natural fibres. These finishes will naturally expand, making the product softer and more absorbent with washing. Powder detergent should be completely dissolved in water and not applied directly to the material. Beware of detergent containing blueing agents or whiteners as they may modify colours.

When drying, avoid direct sunlight as this may affect the intensity of colours as well.

Tumble dry :

- Should be avoided to minimize shrinkage occurring on Tea Towels and Tablecloths.
- Recommended for Throws and Bogolan with Waffle to increase softness effect.
